

# 24V 5mm PI LED Strip

## Product overview

LED strip lights

Reviewed catalog statements for this product. Independent test evidence has not been verified for this summary. This is not a complete technical datasheet or installation guide.

### DEVELOPMENT PREVIEW

## Listed parameters

|                   |                                         |
|-------------------|-----------------------------------------|
| Supply voltage    | 24 V                                    |
| Strip width       | 5 mm                                    |
| Power             | 8 W (measurement basis unspecified)     |
| Luminous flux     | 1200 lm (measurement basis unspecified) |
| Color rendering   | Ra ≥ 85                                 |
| Cutting interval  | 6 LEDs/cut                              |
| Color temperature | 3000, 3500, 4000, 6500 K                |

## Specification notes

- Power and luminous flux measurement bases are unspecified. These values must not be interpreted as per metre.
- The cutting interval is stated in LEDs/cut; a physical cut length is not established.
- Color-temperature options do not establish separate product variants or control compatibility.
- PI is retained as source wording only; no material, performance or operating-temperature claim is established.
- LED density, IP rating, certification, lifetime, warranty and availability are not established by this record.
