

220V 11mm LED Strip

Product overview

LED strip lights

Reviewed catalog statements for this product. Independent test evidence has not been verified for this summary. This is not a complete technical datasheet or installation guide.

DEVELOPMENT PREVIEW

Listed parameters

Supply voltage	220 V
Strip width	11 mm
Power	10 W (measurement basis unspecified)
Luminous flux	1000 lm (measurement basis unspecified)
Color rendering	Ra≥70/80
Cutting interval	20 cm/cut
Color temperature	3000, 4000, 6500 K

Specification notes

- Power and luminous flux measurement bases are unspecified. These values must not be interpreted as per metre.
- The cutting interval is stated in cm/cut; it does not establish an LED count or density.
- Color-temperature options do not establish separate product variants or control compatibility.
- Color-rendering wording is retained literally; the slash notation does not establish a single Ra lower bound, a numeric range, separately specified alternatives, variants or test conditions.
- Supply voltage alone does not establish AC/DC type, direct mains connection, required drivers/accessories or installation suitability.
- LED density, IP rating, certification, lifetime, warranty and availability are not established by this record.
